## Critical IT Solutions and Scantek Join Forces

### The World Has Gone Digital... Is Your Company Ready?

**Critical IT Solutions has joined forces with the industry leader in electronic document management.**

Companies have been backing up data files for years but have often ignored their valuable paper files, letting employees store them in filing cabinets until they fade, yellow with age, or eventually are lost forever! In today's age of HIPAA compliance, Sarbanes-Oxley requirements, general compliance laws and natural disasters the importance of having ALL of your documents secured and backed up is a necessity for your organizations future.

CRITICAL IT SOLUTIONS has found that the success of Scantek is based on exceeding customer expectations in service and technical innovation for their infomanagement clients in a wide range of industries, and their ability to customize imaging solutions based on these industries. They deliver quality document scanning of Paper, Microfilm, and Microfiche, Indexing, Secure Short- Term Storage, and

Shredding in a customized, scalable way to suit every budget, department or enterprise. **Scantek is dedicated to service and is committed to keeping up with the latest developments in the information management arena.**

Their expanded operations in Willow Grove will enable Scantek to better support the rapid growth of our local as well as international clients/alliance partners, by offering them the latest advancements in their field of expertise. Scantek offers a 21st century solution for an under-served management solution market and we are excited about the extensive benefits we can provide our clients.

### Advantages of Scanning

- 99.9% Space Savings
- Access at your fingertips to all your files
